SKILLS

- **Languages**: C/C++, Java, Python
- **Frameworks & Libraries**: HTML and CSS
- **Tools & Platforms**: Git, GitHub, TryhackMe, Hackthebox, Kali Linux
- **Core CS Fundamentals**: DBMS, OS, CN, OOPs
- **Soft Skills**: Time Management, Problem-Solving, Adaptability, Quick Learner

PROJECTS

Wedding Planner | GitHub Sep' 25 – Nov' 25

- Designed a Wedding Planner Web application to manage events, vendors, and bookings efficiently, improving overall event coordination and reducing manual work.
- Implemented user-friendly features like vendor listings, event scheduling, and budget management using structured backend logic and dynamic frontend integration.
- Built secure data handling and validation mechanisms for user inputs such as client details, payments, and event preferences.

Tech Stack: HTML5, CSS3, Responsive Layouts, UI Design, Front-End Development.

Event Management Project | GitHub Jun' 24 – Jul' 24

- Created an end-to-end event management website to replace manual event handling (situation) where users can explore, organize, and manage events digitally
- Handled complete frontend structure and interaction logic (Task) by coding layouts and workflows using HTML, CSS, and JavaScript making the platform user-friendly.
- Optimized the application for multiple screen sizes and smooth navigation (Action), helping users access event details easily across devices.

Tech Stack: HTML5, CSS3, Responsive Layouts, UI Design, Front-End Development.

TRAINING

Linux System Administration Using Shell Scripting | Link Jun' 25 – Aug'25

- Developed multiple shell scripts to automate essential Linux administrative tasks such as disk monitoring, file archiving, zombie process detection, user session logging, and boot history reporting.
- Configured cron-jobs, alert mechanisms, and structured logging systems to enable continuous monitoring and reduce manual administrative effort.
- Enhanced system efficiency and reliability by streamlining repetitive tasks, improving resource usage visibility, and ensuring proactive issue detection.

CERTIFICATES

- Social Network - NPTEL IIT Madras | **Link** May' 25
- Red Hat Linux -RedHat Enterprise and Linux | **Link** Aug' 25
- Cyber Yami | **Link** Nov' 24

ACHIEVEMENTS

- Solved 50+ coding Problems on LeetCode and HackerRank to improve problem-solving skills. Nov' 25
- Earned multiple top-tier badges on TryHackMe, reflecting strong consistency and hands-on cybersecurity skills. Oct' 25
- Secured Medium-level on Try-Hack-Me badges through consistent completion of security labs and challenges. Aug' 24

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 5.65*** *Aug' 23 - Present*

Sri Chaitanya Junior College Vizag, Andhra Pradesh
Intermediate; ***Percentage: 75%*** *Jun' 22 - Apr' 23*

Sri Chaitanya School Vizag Andhra Pradesh
Matriculation; ***Percentage: 100%*** *Jun' 20 - Apr' 21*
